

Common Pulmonology HCCs and ICD-10 Codes Summary

Category	ICD-10 Diagnosis Code	Code Description	HCC Weight
HCC 9- Lung and Other Severe Cancers	C34.90	Malignant Neoplasm of Lung	1.024
HCC 22- Morbid Obesity	E66.2	Morbid Obesity with Alveolar Hypoventilation	0.250
HCC 82- Respirator Dependence/Tracheostomy Status	Z93.0	Tracheostomy Status	1.00
HCC 84- Cardio-Respiratory Failure and Shock	J96.10	Chronic Respiratory Failure	0.282
HCC 85- Congestive Heart Failure	I27.0	Primary Pulmonary Hypertension	0.331
	I27.20	Pulmonary Hypertension	0.331
HCC 110- Cystic Fibrosis	E84.0	Cystic Fibrosis with Pulmonary Manifestations	0.510
HCC 111- Chronic Obstructive Pulmonary Disease		Chronic Bronchitis	0.335
	J42	Emphysema	0.335
	J43.9	Chronic obstructive pulmonary disease with (acute) lower respiratory infection	0.335
	J44.0	Chronic obstructive pulmonary disease with (acute) exacerbation	0.335
	J44.1	Chronic obstructive pulmonary disease, unspecified	0.335
	J44.9		0.335
HCC 112- Fibrosis of Lung and Other Chronic Lung Disorders	D86.0	Sarcoidosis of lung	0.219
	J47.9	Bronchiectasis, uncomplicated	0.219
	J84.10	Pulmonary fibrosis	0.219
	J84.9	Interstitial Lung Disease	0.219
HCC 114- Aspiration and Specified Bacterial Pneumonias	J15.20	Pneumonia due to Staphylococcus	0.517
HCC 115- Pneumococcal Pneumonia, Empyema, Lung Abscess	J13	Pneumococcal Pneumonia	0.13
	J85.2	Abscess of Lung without Pneumonia	0.13
HCC186- Major Organ Transplant or Replacement Status	Z94.2	Lung Transplant Status	0.832

HCC Coding Tips:

1. Document and code to the highest level of specificity
2. Document and code all conditions that were discussed with the patient during each visit
3. Document and code all chronic conditions at least once annually
4. Document and code the specific stages of a patient's condition
5. Ensure that all conditions are updated in the patient's chart based on Summary of Care documents received from hospitals or other specialty consults
6. Limit the number of "Unspecified" or "Other" codes, unless there is not sufficient clinical information to support a more specific code
7. Include additional diagnoses to the appropriate primary diagnoses such as: BMI, and long-term insulin use
8. Up to (12) ICD-10 codes can be submitted on a claim
